NORWAY AND VICINITY.

Hazel Foster is visiting relatives at North Windham.

Rev. Jabez E. Budd-n is visiting his sister in Portland.

Charles Walker is shingling Fred Stevens' house at the Falls.

Aretas E. Stearns of Rumford Falls was in Norway, Wednesday.

Mrs. Charles A. Brooks and children are visiting at Bryant's Pond.

William C. Stiles of Portland is visiting his brother, Moses P. Stiles.

Hon. Thomas S. Bridgman of Buckfield was in town on Wednesday.

A backskin glove is lost according to an advertisement at the post-office.

Mrs. M. W. Chandler and daughter are visiting relatives at Gorham, N. H.

Mrs. George W. Hobbs and Miss Hobbs are occupying a cottage at Peaks Island.

Nellie Lovering of Waterville is visiting her college classmate, Grace B. Bicknell.

Rev. and Mrs. Sumner Bangs of Portland, are visiting his brother, Henry J. Bangs.

The Baptist church will have a vacation during August of all the regular services.

Lovina Bunton of Dorchester, Mass., is visiting her cousin, Mrs. Edwin S. Cummings.

Prof. J. F. Moody of Edward Little High School and son Frank were in town, Monday.

L. W. Cushman is having a vacation at Goat Island. His team is in charge of Milo Currier.

Charles G. Mason is visited by his sister and husband, Mr. and Mrs. H. W. Cobb of Portland.

E. K. Baker of the Bangor police force and his wife are visiting Mr. and Mrs. Geo. F. Hathaway.

Henry J. Bangs and family are planning to spend the month of August in a cottage at Old Orchard.

Charles Bartlett, a clerk in R. F. Barnham's drug store in New Auburn, spent Sunday in Norway.

A dozen or more recruits are wanted for the military company. Apply at once to Sergt. Wallace Sheen.

Sarah Cragin of Portland is visiting her nephew and niece, Charles E. Cragin, Nora Cragin and Hattie E. Cragin.

Mrs. Evander P. Gatchell and little son, Ralph Augustus Gatchell, are visiting at Francis E. Porter's, Millettsville.

John F. Sampson is visiting a paint brush around Dr. Frank N. Barker's residence at corner of Main and Danforth streets.

Stephen B. Cummings is spending the week with his family at Falmouth Foreside. This is their last week there, this summer.

Tuesday evening, a trio of negroes sang on the street and passed around the hat. They pleased the listeners, of which there were a good number.

Dr. J. A. Donovan of Lewiston was in town, Saturday. He was called to Otis field for a consultation on account of Mrs. W. W. Andrews who is very sick.

Albert J. Stearns, esq., and wife are visiting his parents, Hon. and Mrs. Joseph F. Stearns, at The Willow in Lovell. We suspect that his father will make him work in the hayfield.

Warren Parsons of New York is visiting at W. S. Partridge's at Norway Lake. Mr. Parsons is private secretary for Congressman George B. McLellan of the Twelfth New York district and is taking his vacation while Mr. McLellan is in Europe. He has been to the exposition at Buffalo and will make a tour of maritime provinces before returning home.

A petition has been sent to Washington asking for a change in Rural Free Delivery Route No. 1, so that the route would lead from Upton Ridge to Richardson hollow in Greenwood and thence via Millettsville to I. F. Titcomb's. The change would not lengthen the route but would give delivery service to some twenty-five families than at present. It involves reopening a short piece of discontinued road.

Rev. W. C. Stiles' Norway friends, who read the article in the New York World and Journal of July 15, alleging among other intimations about the second Congregational church of Stonington, Conn., and the pastor, Mr. Stiles, that a committee had been appointed to investigate, that at a meeting of the church Dr. Stiles was vindicated. The article says by its vote that no move had been made to inquire into any alleged improper conduct of the pastor; that they had full confidence in his Christian character and conduct. They pronounce as false, malicious and cruel the intimations contained in the article; as slanderous against the good name of the pastor and worthy the condemnation of all Christian people.

Franklin Perry of Massachusetts and Caleb Buck of Portland have been in town calling on old friends. Mr. Perry worked in the Mark Smith tannery, forty years or more ago.

Mrs. Elizabeth B. Lamb of Attleboro, Mass., will be present and talk at the W. C. T. U. meeting appointed to meet with Mrs. William Frost Jones, Thursday, July 25, at 7.30 p. m.

S. H. Walcott is recovering from his recent severe attack of illness. Tuesday afternoon, he made a trip to Bass Island on the steamer, and as soon as he is able will go to his sister's at Union.

Sebastian Smith of Oxford was in town on Tuesday. He tells us that this season's crop of strawberries is a short one with him. The heavy rains and blossoming time prevented good pollinating.

Ida M. Holster, the trained nurse who has been at C. M. Smith's, will return to Lewiston, this week. Mr. Smith is able to be out of doors (under the piazza) and does not need the nurse's care longer.

James N. Faver is to take a well earned vacation of a week or ten days. He will visit the Pan-American exposition at Buffalo and will start, next week. His harness business will be left in charge of Reuben Cobb and Ernest Swett.

Mr. and Mrs. T. H. Jordan of College street, Lewiston, returned, Saturday, from a carriage drive through Oxford county. They visited Oxford, Norway, Harrison, Bridgton and other places. Mr. Jordan went fishing several times and altogether they had a splendid time.

Isaac A. Denison of Mechanic Falls informs us that the new organ for the Congregational church in that town is a fine one from Dea. Nelson Valentine of New Gloucester, in memory of his father, Deacon John Valentine. The Valentines formerly lived at Mechanic Falls. The organ is a very fine, large instrument and requires some changes in the church before it can be put in place.

The New England Telephone and Telegraph Co. will put in new instruments in this village as follows:

John Hayes, residence.

Henry J. Bangs, residence.

Charles F. Kidson, residence.

Mark Frider, residence.

John M. Cummings, lively stable.

Freeland Howe, residence.

Robert F. Andrews, residence.

Alphonso Allen, boarding-house.

John M. Cummings, residence.

The usual quiet of the two villages is soon to be disturbed by a telephone war. The coming of the Eastern Telephone Co. into the field has disturbed the New England Co. and there is a fair likelihood of a cut in rates. The town of Paris has granted pole rights to the new Paris and undoubtedly this town will do the same and then it only remains to be seen how cheaply the public can have telephone service. The Eastern Company intends giving connection with Bolan's Mills and way stations with West Paris, South Woodstock, West Sumner, Paris and other lines into the rural districts.

Mrs. Albert H. Williamson, who has been the guest of her father, Laforest, three miles above Farmington, on the Strong road, on Saturday drove to Farmington village with two lady friends. On their return, as they were driving on the piece of road just south of the Russell Bros. & Esty Co. box shop the horse became frightened and sheered to the left of the road going down over the very steep embankment with the carriage and its three occupants. The other two ladies jumped position, but Mrs. Williamson was driving, pluckily held to the reins. When picked up she was unconscious, and not until some hours later, after she had been removed to her home did she revive. Fortunately the horse stopped at the foot of the embankment. Mrs. Williamson held a strong grip on the reins even when strong up. Mrs. Williamson received no more serious injury than the inevitable shaking up and it is believed that she will soon recover from the effects of the shock.

Minna Jewett is at home for a vacation. She is a nurse in a hospital at Roxbury, Mass.

Mrs. Carrie Nichols of Malden, Mass., has been visiting her aunt, Mrs. Jennie A. Frost.

Frank P. Stone and family will go to Falmouth Foreside, next week, to spend a fortnight in seaside cottage life.

Mrs. Mary Bennett, and daughter, Grace Bennett, have returned from Lewiston. Miss Bennett's course of medical treatment has improved her condition somewhat.

Wedding cards and envelopes in correct shape at the Advertiser office. We print them at the prices usually charged by the city stationer. Call and see samples.

G. D. Williamson of Houlton has been visiting his brother, A. H. Williamson. He is to visit his old home up Sunday river before his return. The potato business in July and August is a little dull so he can get away from business.

Mrs. Winfield S. Cordwell has a notable number of old-fashioned flowers—immortelles, blue lilies, tiger lilies, marigolds, fragrant balm, hollyhocks, and most conspicuous of all a great clump of giant pink spirea which overhangs all the rest.

Winfield S. Cordwell has in his possession a piece of hard tack which he knows to be forty years old, as it was served to him in army rations at Washington, D. C., during the summer of 1861. He thinks likely that it was some left over from the Mexican war.

134th Performance.

H. Price Webber had a very large audience in the opera house, last night, to see his clever company perform the "Streets of Boston" and the farce of the "Secret," which were given in a very enjoyable manner, to the entire satisfaction of the patrons.

Mr. Webber has encountered a great many difficulties, this season, including losing all his costumes and stage settings by fire in Magog, P. Q., last April, but he was as cheerful and hopeful as ever. Norway people all like Price Webber.

Rollin Towne of Saugus, Mass., is at his old home in Norway.

Mrs. George Millett and little son are visiting at Mechanic Falls.

Frank P. Kimball is working in Liseco A. Hall's barber shop at Bethel.

Mrs. E. C. Libby is visiting her sister, Mrs. Emma Robertson, at Gorham, N. H.

Chester Ham and wife and son of Lewiston are visiting at Frank E. DeCoster's.

Superintendent J. H. Symonds of the Spinney shoe factory was in Auburn, Tuesday.

Mrs. Lizzie F. Swett is to move to Boston to work at dressmaking and to educate her son, Ernest Swett, in one of the business colleges of that city.

Rev. B. S. Rideout will spend his vacation in Lewiston and Garland. There will be services at the Congregational church, next Sunday.

George Bicknell and family of Auburn are visiting relatives in this village. They will go the rounds and spend four or five weeks here.

George R. Stephenson shipped a fine looking canoe to the West Medford Boat Club, last Wednesday. Stephenson is busy with work and way behind with orders.

Rev. B. S. Rideout has been camping out this week, with the boys of the Sunday school whose ages are in the early teens, at Gibson's grove, Lake Pennessewassee.

Elmer Abbott of Berlin was in town, Wednesday, on his way to Bridgton to visit his parents. Mr. Abbott is thinking of going into the laundry business at the paper city.

H. R. Virgin and wife of Portland and Hon. George W. Goulding and wife of Oakland and Ed. D. Cole and wife of Portland are staying at Cole's Island at the Lake.

The State Steamboat Inspectors, John M. Taylor of Southport and Joseph Atwood of Wintport, inspected the craft in Lake Pennessewassee, Tuesday. The statu quo remains.

John A. Woodman's five-pound trout that he caught at Haines Landing and has been mounted mezzio style by J. Waldo Nash, has been hung in the dining room at the Beal's Hotel.

Prof. C. H. Warren of the Institute of Technology of Boston and formerly the assistant professor in mineralogy at Yale, is on Paris Hill. Prof. Warren was a guest of George Howe, Monday.

Mr. and Mrs. George Clifford, who have worked in the shoe factory for the past few months, received a telegram, Monday evening, calling them to Massachusetts because of the serious sickness of a relative. They went, Tuesday forenoon.

W. J. Jones, superintendent of the N. & P. railroad has made arrangements with the owners of Electric Park to have it opened to the public. He will fix up the fence and seats inside and you can visit it free of charge. You can have your parties and picnics there without expense, but of course his road would like to do the transportation.

Charles H. Sargent is to be transferred from the foremanship of the Spinney shoe factory cutting room to the Radcliffe cutting room. Thomas F. Harvey who has had charge of the cutting in the Radcliffe factory, returns to Massachusetts, where he is declining an assistant foreman's position here. Walter S. Peaseley is promoted to boss of the Spinney cutting room.

BRYANT'S POND.

Mrs. L. B. Stephens is visiting at Rumford Falls.

Amos Thurlow of Mechanic Falls was in town, Tuesday.

R. L. Cole is visiting his son and daughter in Lynn.

John Lewis of Brooklyn is boarding at the Glen Mountain House.

Vernie and Norman McCollister are working for Currier Bros. at Rumford Falls.

Rev. Mr. Hamilton of Everett, Mass., picked up. Mrs. Williamson received no more serious injury than the inevitable shaking up and it is believed that she will soon recover from the effects of the shock.

SOUTH PARIS.

Master Bertie Curtis is spending a few days with relatives at Snow's Falls.

Mrs. Augustus Lord of Beverly, Mass., is visiting at William H. Blake's.

Dr. James G. Littlefield spent Sunday with his wife at Falmouth Foreside.

W. M. MacKenney and wife from Bangor have been in town for a few days.

Dr. James G. Littlefield spent a few days of last week with his folks at Bridgton.

Mabel G. Hathaway is entertaining a friend, Miss Kellogg, from Holyoke, Mass.

Mrs. Paul D. Higgins of Castigan is visiting her parents, Mr. and Mrs. William H. Shaw.

Mrs. Ethan Willis has gone to Rumford Falls to spend the summer with her husband there.

George H. Cummings and wife of Mechanic Falls were guests at Wirt Stanley's on Sunday.

Rev. Thomas J. Ramsdell exchanged pulpits with Rev. J. D. Graham of Rumford Falls, Sunday.

Juan Escarra de Colonge has returned to Albert D. Park's after spending a few weeks with relatives in New York.

A. L. Williams of Portland was in town, a few days last week, on business for the New England Telephone and Telegraph Co.

Chandler Swift went back to Rumford Falls, after having the measles, and was prostrated by the heat. He is now at home, recuperating.

Saturday afternoon, Paris Hill and South Paris base ball clubs played on the fair grounds, and the Hill boys won by a score of 11 to 5.

J. C. Harlow, the cobbler, has closed his shop here, and will go to the soldiers' home at Togus. Mr. Harlow's health is so poor that he is obliged to give up work.

Harry A. Morton and wife, Mrs. L. C. Morton, Julia P. Morton, Luella Hayden and Mark Richardson are rusticiating at the Billings cottage by Great Concord pond in Woodstock.

Mrs. Herman Wilson sang at Gorham, N. H., last week, in an amateur production of Leavitt's comic opera, The Frogs of Windham, taking the same part that she did in the production at Norway in the summer of 1890.

Eunice W. Fobes has returned from her visits to the exposition at Buffalo and to relatives in New Jersey. Her nephew, Henry P. Pratt of Orange, N. J., came with her and will spend the rest of the summer at William H. Swett's.

Carl Jean Telman, organist, is visiting his parents, Dea. and Mrs. Charles E. Tolman. He has decided to move from Farmington to the city, but whether he will locate in Lewiston or Auburn depends upon the accommodations which he can secure for a studio.

James D. Williams is rusticiating at the seashore. His son, A. L. Williams of Portland, has a cottage at Peak's Island, and his daughter, Mrs. Frank White of Danville Junction, is occupying a cottage on Long Island. Mr. Williams visits there each week, and the summer time by the seashore would last forever.

The New England Telephone and Telegraph Co. will soon increase its instruments here by telephones in the following places:

George B. Crockett, residence.

Alton Austin, residence.

Charles W. Bowler, store.

Carroll G. Curtis, store.

William J. Wheeler, residence.

N. Dayton Bolster, residence.

Alphonso E. Spurr, residence.

Ernest P. Parlin, residence.

Harry A. Morton, residence.

Charles E. Tolman, residence.

Newell Cook, lively stable.

W. E. M. of Boston is mining quartz and felspar on a ledge of the Clinton Shaw farm near Number Four hill. The product is shipped to New Jersey and beyond for use in crockery and glass factories. The mining here is only experimental at present, and half a dozen men are at work, but if the rock prove to be of as good quality as expected, the work will become permanent and furnish employment to three or four times as many men. In that case mills will be erected and rock ground here, probably thirty or forty tons a day.

Following the failure of the hearing on the Eastern Telephone Company's petition for street privileges here, a petition was started, asking the selectmen to grant them privileges and presented to the selectmen at the regular meeting of the board on Saturday. After making a few minor changes in the document, the selectmen signed the permit. It grants the Eastern Telephone Co. the privilege of erecting lines as requested, the only change from the list of streets and roads published in their notice—which included about everything in town—being the cutting out of Porter street and the Fobes district road. The permit specifies the kind and size of the poles to be set, the distance, etc.; also specifies that the wires shall not be less than 18 feet from the ground; that poles in village shall be painted and kept painted; and that the overhead crossing on the poles shall be reserved for the use of the town for town purposes, as for fire alarm, etc.

Henry Merrill is visiting in Lewiston. The little daughter of Capt. F. C. Tribou is gaining.

Alton C. Wheeler spent last Sabbath with friends in Auburn.

Mrs. Samuel Plummer of Sweden is visiting her son, J. F. Plummer.

Dr. Horatio Woodbury is slowly recovering from his severe sickness.

Benj. Mason visited his brother at Island Pond, Vt., Wednesday night.

The Congregational church vacation will be during the month of August.

Mrs. R. L. Woodbury of Auburn, Mass., is visiting at John W. Chute's.

Mrs. Whitefield B. Stuart is visiting her daughter, Mrs. Charles McDonald, at Skowhegan.

Adna Gurney of Gorham, N. H., is working his trotter, Colonial Boy, on the fairgrounds track.

Albert D. Park and wife and Senor Juan Escarra y Colonge were in town on Strassack mountain, Wednesday.

Mr. Mica Lodge, L. O. O. F., will have their annual excursion on Aug. 10. The July 28 and Aug. 4. Each service will be held at 3 p. m.

William M. Shaw and folks go, this week, to Camp Owsley, Anonymous pond, Harrison, on an outing of a week or ten days.

A movement is on foot for a base ball tournament in about a fortnight. The same parties who got up the successful tournament of July 4th are working for it.

The library question remains unchanged, but the people are expecting to hear from Mr. Howland, almost any day, in regard to his final proposition on the building matter.

Trask, the horse buyer, of Gardiner, has been in town and gone back with three horses. He bought Leslie Newell's pacer and a couple of others from the stables of Wm. J. Wheeler.

Mrs. James S. Wright's large fragrant white lily is greatly admired by the passers by along Pleasant street. It is a Japanese variety which on account of gold bands on the petals has been named Auratum.

Charles E. Spofford is on his native heath once more and rejoicing at the mountain breezes. He has a short vacation from his work as third hand in the spinning room of the Ann & Hope cotton mill at Lonsdale, R. I.

George H. Shuttleworth of Liverpool, England, has been in town on business with Rinaldo L. Cummings. Mr. Shuttleworth is a commission merchant in Liverpool and has handled many apples bought and shipped by Mr. Cummings.

Town Clerk Alfred Cole and Hon. Thomas S. Bridgman of Buckfield were in town, Wednesday. We learn that the Zadock Long Memorial Library at Buckfield will be dedicated on Saturday, Aug. 31, the last day of old home week.

George W. Frothingham and wife are at Meil W. Sampson's cottage, The Farm, by Lake Pennessewassee. With them are Mrs. Frothingham's cousins, Harry Burnham and wife of Dorchester, Mass., and also Mr. and Mrs. Eugene L. E. Drake of Dorchester.

B. P. Delano of Gray is staying here and working a couple of horses on the track. One is Edgemark, jr.; sire Edgemark, dam by Strathmore, second dam by Alexander's Abdallah; a good lively nine-year-old. The other is a five-year-old, Charles M., by Norway Knox, dam by Manbyne Paken; a pacing colt that showed up well in last season's work and gives promise of notable feats in the coming fall races.

Some repairs are in progress on the schoolhouses in town. The outside of the Shurtleff house in this village and of the houses in Paris Hill and the Tabbs neighborhood will be painted. The Whittemore and King schoolhouses will be sheathed with hard pine and painted inside. The King schoolhouse will be reshingled and painted inside. Various other small repairs will be made on nearly every temple of learning in the town of Paris.

Clarence W. Shaw of Fort Myers, Fla., was in town, Wednesday, selling Florida curios, etc. Mr. Shaw and his older brother, Ike, are in the taxidermy business at Fort Myers on the Caloosa-ochee river which is the outlet of Lake Okeechobee. It is a winter resort locality and their business is mostly in the winter, but they find it necessary for one of them to stay there during the hot months to look after their houseboat and other property. They are Buckfield boys.

DISCOE DISTRICT.—Carrie Foster is visited by her cousin of Auburn.

George Chapman has a United States cream separator on trial.

T. Judkins is at work for Prentiss Crockett through haying.

Grace E. Penley of South Paris spent a few days with her friend, Vera Foster, last week.

Copyright, 1901, by Cutcliffe Hyne.

Captain Kettle thought out things as he journeyed from Shields to the grimy office of Mr. Sneyd, the manager of the shipyard in Newcastle, but his data were insufficient, and he was unable to hold of any scheme by which he could safely approach what was, to some extent, the very least of it, a very delicate subject. Mr. Gudge had hired him a cabin on the Sutherland of Labuan; he had no word about losing her, and he was loath to force the owner's confidence. It looked the most unpromising of all. It looked the most unpromising of all. Moreover, all the while in the outward world he was as a fellow as ever lived, he had the shipmaster's timidity at tack, and shipowner in his lair, and the course handicapped him.

The 23rd Maine Regiment Association will hold their annual reunion at Bethel on Thursday, Aug. 29.

W. H. Weeks and family of Lewiston have been enjoying a carriage drive through Oxford County.

The following rural free delivery service has been established: West Paris. One carrier; length of route 21.23-32 mi.; area covered 18½ square miles; population served 504.

What is most sorely needed in this country is a newly invented buckaw or garden hoe which will possess the same fascination for the 15-year-old kid as does the baseball bat.

At last it has been decided that there will be no fair at Old Orchard this year, and for the second time a costly set of buildings erected for the New England fair will be practically useless.

Deputy Grand Chancellor T. P. Richardson installed the officers of Hawatha Lodge, East Stoneham, last Saturday evening. He will install the officers of the Pennessewassee Lodge, this Thursday evening.

Going away for the summer? If you are, better let the ADVERTISER follow you. You'll want to know what's happening at home while you're absent. For 15 cents a month it will make you weekly visits until your return.

The premium list for the next cattle show of the Oxford North Agricultural Society is at hand and indicates a prosperous condition of things with the Society. The annual fair will be held at Andover on the 2d and 3d of October.

Some senseless brainless mortal with a head as empty as a five-cent cocoanut has carved the initials of his name on one of the settees at the park. That old adage of "Fools' names lie their faces, etc.," aptly applies to this funny heaver of wood.

William Conroy, who was wanted at Rumford Falls for the larceny of a check, was arrested at the Casco Bank, Portland, Monday, while trying to cash a check, and taken to Rumford Falls in the afternoon. He claims the check was given him by the indorser.

The astronomer who predicted a cool summer on account of the appearance of large sun spots is keeping very quiet nowadays. Perhaps he may be heard from again, but he is indeed courageous if he shows himself until after we have experienced a good hard frost.

The only cure for indolence is work. The only cure for selfishness is sacrifice. The only cure for unbelief is to shake off the ague of doubt by doing your conscience's bidding. The only cure for timidity is to plunge into some dreaded duty before the chill has time to come.

A celebrated surgeon met a young officer in Piccadilly the other day and greeted him with surprise. "Well, I am pleased to see you! I am surprised! Do you know I have a portion of your brain in a jar at home?" "Ah, well," laughed the other, "I can easily spare that. I have got a berth in the War Office."

It is understood that the Oxford Bar will have an excursion to Bemis, Aug. 20, on the date of the term of Probate Court at the Falls. A special train will connect at Mechanic Falls with the early and late trains on the G. T. Ry. The run to Bemis will be made after a very brief session of court at Rumford Falls.

"In filling places in my corps of teachers," writes Mary Louise Graham concerning "My Boarding-School for Girls," in The Ladies Home Journal for August, "I considered personal attractiveness as well as intellectual qualifications. Girls are influenced so much more readily by women whom they admire on the social side. More than anything else, I held out for a simple, natural manner."

The United States Government has issued a fraud order against the use of the mails for advertising "lucky stones" from India, guaranteed to be good for love or rheumatism, to relieve pain and make one's business remunerative. It will always be necessary to protect a fair percentage of the people against their own credulity and folly. The advertiser of these "lucky stones" has been getting \$1 apiece for them, and has probably made more money out of his rascality than the gold-brick man has won from his victims.

Rumford Falls Case Argued.

At the law court at Portland, Tuesday, was heard one of the most important cases before the law court, this term, was that entitled, Rumford Falls Boom Company vs. Rumford Falls Paper Company. The paper company, of which Daniel E. Emery of Portland is president, and the most important factor, has in times past employed the plaintiff company to boom, handle and deliver the logs which it uses in the manufacture of paper, under an arrangement by which the defendant later came into the use of boom, piers, etc., owned by the plaintiff. The boom company claimed rent for the use of its property to the amount of \$30,841.94 with interest from January 12, 1898—a total of over \$34,000. This amount was not conceded by the paper company. The claims were presented to Gen. Mattocks as auditor, and he reported the full sum claimed by the boom company, the paper company presenting no case to the auditor. The case then went to the jury, but after presentation of testimony was taken to the law court.

An impressive array of counsel have been employed in this case. For the boom company appeared Symonds, Snow, Cook & Hutchinson, H. B. Cheves and S. C. Perry and George E. Bisbee. For the paper company Clifford, Verrell & Clifford, appeared.

The Rebekah concert held July 19, succeeded beyond any one's expectation. Over one hundred tickets were sold while about as many more bought them at the door. The ice cream and cake was in great demand. Fruit punch was also sold. Every one is enthusiastic in praise of the concert, and indeed it was an enjoyable time. The talent was good and had an appreciative audience, as one could tell by the repeated encores. The proceeds were about \$38.

Condition of Crops.

The following is from the U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New England Section.

All crops are reported as growing with great rapidity. The hot sun and rain have produced conditions most favorable for speediest growth, and where crops have not suffered critically from previous unfavorable conditions, they give most favorable promise. Pastureage, in some cases, however, has suffered and grain is being fed to stock. Every exertion has been taken to house hay, and in most localities an excellent quality has been secured. Small fruits are not up to normal, but this is rather due to previous weather conditions than those of the past week, which really have been of much benefit to all, except apples; these are reported as dropping badly and give no promise. Some grain has been knocked down by the rain and high wind, and hail has cut tobacco leaves.

Grain.—Rye has proved very satisfactory and is mostly all harvested. Some oats are suffering from rust, but it is not so noticeable as last week, and in some districts they are reported as headed and in others as cut. Corn was somewhat damaged by the high winds, but not to any great extent; some of the crop is in tassel but on the whole it is somewhat late. Buckwheat is up. All reports seem to show grain to be doing well; better than was to be expected after the unfavorable conditions earlier in the season.

Grass.—The crop of hay is heavy and of extra quality. The weather has been most favorable for haying and the work has progressed rapidly. On account of the extremely warm weather some grass dried standing in the fields. In the northern districts the showers have been a little too frequent to be of best advantage to haying, but have not interfered much. Pastures in southern districts are poor, and grain has to be fed to cattle and to cows to keep up the supply of milk.

Fruit.—Berries give but little promise—possibly about half as many as usual—and many of them are drying on the bushes. Some districts, however, report berries as abundant and doing well. Cranberries will also be a light crop. Fair satisfaction is expressed about peaches although some are blighted. Grapes and peaches, in some localities, will be abundant. Cherries are ripening and being picked. Apples are an unfavorable crop this year. The fruit is dropping badly and gives every indication of being a failure. Winter varieties are very light and earlier kinds are only fair. All fruit in the Narragansett district is in excellent condition.

Vegetables.—Potatoes are a fair crop, although some reports indicate that the crop is short and that there is some rust; on the whole, however, indications are for a good yield. Peas are below the average. Squash, cucumber and melon vines are badly attacked by bugs and few are left. Fall turnips and cabbage have a good start.

Monday, July 15, Mrs. Addie Brackett Bryant passed away at the home of her sister on Pleasant street, Woodfords district, Portland, aged 82 years. Mrs. Bryant was born in Harrison and was the daughter of George W. and Rebecca Brackett, who for many years resided in that town. Besides one son, Myrton, a student at Bowdoin, she leaves two brothers and two sisters, Emil I. and G. Edwin Brackett and Mrs. Freeman Brown of Westbrook and Mrs. Horace Ames of Woodfords. The interment, Thursday, was at Woodlawn cemetery, Westbrook.

Ran into a Stump.

Col. and Mrs. Fred N. Dow of Portland, Friday, while en route to the mountains by automobile, and when passing the Forest woolen mill a mile below Bridgton, the machine went into a hole in the road, which caused the colonel to lose his grip on the steering apparatus, and he ran into a stump, smashing one of the wheels which was the danger of George W. and Rebecca Brackett, who for many years resided in that town. Besides one son, Myrton, a student at Bowdoin, she leaves two brothers and two sisters, Emil I. and G. Edwin Brackett and Mrs. Freeman Brown of Westbrook and Mrs. Horace Ames of Woodfords. The interment, Thursday, was at Woodlawn cemetery, Westbrook.

There was a collision of steamers at about 4 o'clock, Saturday, on the Songo river, which caused considerable excitement for the time but there was no danger. The steamer Hawthorne was proceeding down the river to Sebago Lake station when the launch Andino approached. The captain of Hawthorne whistled for the launch to go to the left. Instead, the launch, it is claimed, was run directly in front of the Hawthorne and was nearly out in two. As it was the launch was badly damaged.

As the river is only a few deep at the point where the collision occurred there was no danger. There were some amusing incidents, however. A young girl approached a lady and asked which boat was sinking. She was told neither could sink more than a foot, but she started for a life preserver just the same. The passengers of the launch were taken aboard and the launch towed to a place of safety.

NORWAY AND VICINITY

Howard E. Moulton took a trip to Lewiston, last Friday.

Stated meeting of Oxford Lodge, F. & A. M., this Friday evening.

James Dunn visited friends in Lewiston and Auburn, last Friday.

Yonetta Glendinning of Lewiston spent the Sabbath with friends in town.

Jennie H. Pierce of New York is spending her summer as usual in Maine. She is now in West Paris.

Llewellyn Cushman's horse, that he drives on his job team, was the first to appear on the street with a hat on.

Dora Chaffin visited her grandmother, Mrs. Clara Hayden, last week. Miss Chaffin is a nurse in the hospital at Gloucester, Mass.

Maynard S. Bird and wife of Rockland came to town, last Friday, for a few days stay. Mr. Bird is general manager of the Eastern Telephone Co.

Mrs. Simon Drake of Kittery who has been visiting her son, Dr. Fred E. Drake, and friends in town for a month past, has gone to Augusta, to visit friends there.

Frank P. Knight and two sons from Manchester-by-the-Sea, Mass., are rusticating with Samuel H. Hayden's family at "The Haverhill" by Lake Penesseewassee.

Irving L. Loring sends us a Cuban paper, printed in the English language, and a pamphlet program of the Fourth of July sports of the 7th N. S. Cavalry at Camp Columbia, Quemados. They had a big time in the regular American style.

Miss Libby is taking some very pretty views of the Rangely region which can be seen at J. W. Nash's at Haines Landing. Miss Libby's views in the lake region were so well liked there, last year, that she was asked to go again this season.

Just at four o'clock, Saturday afternoon, there was an alarm for a fire in Mrs. Anna Noyes' kitchen over the rear of the Noyes Drug Store. The blaze started from an oil stove and spread all over that one room. It was easily put out though considerable damage was done by water. Della Noyes and Frank Kimball sustained burns on their hands.

The New England Telephone and Telegraph Co. has installed a new switchboard in Norway telephone central. It is fitted with the latest conveniences and will save lots of labor, besides being ornamental. Annie says that she hasn't yet got the hang of it, but as everything is handy and easy to reach she expects to be able to answer calls if possible still more rapidly than in the past.

During the thunder shower of Thursday afternoon, July 18, lightning struck the stable of George B. Dunham on Beal street and right near the stable of Harry E. Lowjoy on Willey street. At Mr. Dunham's the people were badly shocked but otherwise unharmed, and a few boards of the stable were torn and a post splintered. It also ripped the stock completely off Mr. Dunham's shagreen. Mr. Lowjoy's stable was injured a few dollars' worth, and was set on fire but one pair of water put out the blaze. Mr. Lowjoy was thrown out of a hammock but not hurt. Apparently it was the same electric discharge which reached both buildings.

We have seen a great many roses and sweet peas, this season, and their owners were justly proud of the beauty, but they all fade into insignificance when compared with Mrs. Edwin W. Howard's yucca which is now in full bloom. The base is a mass of rich green dagger-shaped leaves a foot or more in length. There is a single stalk, nearly six feet tall, and bearing by the hundred, rich white cup-shaped lily blooms with petals about two inches long, and as delicate in material as Nature can make them. At a distance the plant is conspicuous, and the nearer you get to it the lovelier it appears. This plant blossoms only once in ten or a dozen years and then makes up for lost time.

A. M. Andrews of South Woodstock was in Norway, Friday. He is much interested in the Eastern Telephone Company getting the right to put up poles and do business in Norway and South Paris. The local company that he is interested in has a hundred miles of wire and one hundred and fifty instruments in Greenwood, Woodstock, Paris, Fryburg, Buckfield and vicinity. They have made arrangements with the Eastern Company so that in case that company should come to Norway and South Paris they could have telephone connection with the two villages. This of course would be of great advantage to all along the line and to the people of Norway and South Paris as well.

Letter to H. F. Favor.

Norway, Me.

Dear Sir: You may own several houses. Your reason for painting Devco lead and zinc then is several times as strong as that of the man who owns but one.

Lead and oil was good enough paint till the merits of zinc were found out. It was profitable to paint lead and oil—it was then—but not now.

The addition of zinc to lead makes Devco lead and zinc last twice as long and cost no more; costs less—a trifle less, not much. Lead and oil is mixed by hand; Devco lead and zinc by machinery. Might as well make one's shirts by hand as mix paints. Say it costs \$100 a house to paint lead and oil, and it lasts three years.

Say it costs the same for Devco; which lasts six years—it will last ten years, in favorable conditions, unless you want to repaint to change the color.

The cost of lead and oil about \$30 a year, Devco \$15—probably less.

Yours truly,
F. W. DEVOS & Co.

P. S.—F. P. Stone sends our paint in your section.

Fred O. Stearns of Rumford Falls has been visiting his friends in town.

Our Folks as Educators.

Probably there are five hundred people from Oxford county who are college professors, school teachers, school officers, or doing educational work in other States. Can't somebody tell us who they are? Names from Northern Cumberland as well as from Oxford county will prove interesting. Here is a partial list, but we hope to multiply it by ten:

The Beautiful Belgian Hare.
Why He Is Valuable and Why He Is a
Hare and Not a Rabbit.
Believe me, there is no better little
beast alive than a fine Belgian hare. He
is, in a way, race horse, cart horse,
hackney and roadster. That is to say,
in his degree, Mister Hare is as interest-
ing as any of these, as useful as the cart
horse and measurably more filling than
either, for you can eat him. Oh, you
can eat a hare, but it's a shame, and
the meat is not as good as beef, but the
best-looking horse won't taste better
than a good hare, and it seems right, if
you can't "show him round" and get
prizes for him, to dine off him.
The Belgian hare has not been with us
very long, and his existence is due to
the fact that the gourmet did not have
quite enough of a good thing. The
English present of game from landlord
to tenant usually consists of a brace of
partridges, brace of pheasants and a
wild hare. No matter how you cook
him, the hare proper will only produce
two litters of three or four kits a year.
That's why hare is game: it's scarce;
most game things are good things, and
good things are very, very scarce—good
women for instance.
Gourmet wanted more, much more
hare, so learned animal-cultivists set to
work and proceeded to cross-breed all
kinds of rabbits, always with the wild
hare in mind, until, by and by, they ar-
rive at a creature resembling him in
color, ticking, build, above all in flavor,
and who could be depended upon to
multiply six and seven, and even eight
times a year, with from 6 to 10 young
to a litter! Gourmet is quite satisfied
thank you, but the fancy breeder is still
after a Belgian that will twin his wild
brother. Such an animal will, it is said,
be worth \$10,000.

There's as much pleasure in grooming
a fine hare as a fine horse, and one takes
the attention no whit less than the
other. Every horseman knows the way
a beautiful mare will flirt and show off
after she has been well "dressed" and
has her shining trappings on, with a big
rose by each ear. When a doe has been
rubbed and brushed and her fur polished,
she will throw herself down with a
languorous grace which pantomimes
expressively, "I'm beautiful—admire
me!" The commercial value of hare-
breeding is the furtherance of one of the
most practical and essential industries
that has ever come to the notice of man-
kind, in that it is the source of a most
delicious meat supply, a thing entirely
indispensable to the human race, as
Judge Cabot of Boston well puts it,
"The hare is not a hare at all, but a
hare-like rabbit. The fancier's
man desire is to obtain a Belgian that
will externally match the wild hare,
whose young are born open-eyed, "all
feathered and furred," and able to run
and eat right away. Mrs. Belgian's
babies are blind, naked, helpless, almost
shapeless, and must be mother-nursed
for at least from 10 to 15 or more days.
Mrs. Wild Hare's bedroom is in "form"
on the ground. Mrs. Rabbit's in a burrow
under the ground. Belgians would do
the same thing if they were not hunted
and. Indeed, I had a wire run of Belgians
once who burrowed and bred more or
less as rabbits.
Again, the little animal I am writing
of could be quite a pretty link between
master and man; between Tom, the
dog who greases the horse, and Tom's
millionaire master who drives him. The
master might take up the fancy, build a
splendid rabbitry (the locality devoted
to Belgian hares is called a rabbitry) and
start in to try and breed the long-waited-
for quadruped that will score 99 out of
a possible 100—97 is, I believe, the best
yet. Tom, with his three hutches made
out of old champagne cases, his rabbitry
a corner of the stable or food house, and
only two or three good families, stands
just as good a chance of capturing the
prize as his master, and all true fanciers
will court not only the royal animal
when it comes, but also the man who
bred the animal.

Care for Cholera, Infantum—Never

During last May an infant child of our
neighbor was suffering from cholera in-
fantum. The doctors had given up all
hopes of recovery. I took a bottle of
Chamberlain's Colic, Cholera and Diar-
rhoea Remedy to the house, telling them
I felt sure it would do good if used ac-
cording to directions. In two days the
child had fully recovered. The child is
now vigorous and healthy. I have rec-
ommended this remedy frequently and
have never known it to fail.—M. M. CUN-

TESTING THE SEEDS.
EXPERIMENTS TO BE MADE AT THE
PAN-AMERICAN.
Exhibit of the Division of Botany of
the United States Department of
Agriculture Will Deeply Interest
the Agriculturists.
The progressive agriculturist will
be interested in the exhibit of the Di-
vision of Botany of the United States
Department of Agriculture at the Pan-
American Exposition, as it relates to
one of the first essentials of his call-
ing. The exhibit will be restricted to
only one of the numerous lines of work
conducted by the Division of Botany—
namely, pure seed investigations. It
will represent the work of the Seed
Laboratory at the Department of Agri-
culture, where samples of all seeds dis-
tributed by the Government are now
carefully tested for purity, germina-
bility, and freedom from seeds of nox-
ious weeds.
Thousands of samples from farmers
and seedsmen in all parts of the coun-
try are also tested at this laboratory.
The work is of special interest to farm-
ers, gardeners, seedsmen and experi-
ment station workers, to whom the sub-
ject of pure seeds is of vital impor-
tance.
The Seed Laboratory of the Depart-
ment of Agriculture is well recognized
as the most important seed testing sta-
tion in America. Its methods, stand-
ards and most important pieces of ap-
paratus have been adopted for seed
testing at many of the State Experi-
ment stations. The methods now in
use and many of the instruments and
larger pieces of apparatus have been
devised and perfected by the men in
charge to meet the necessities of the
work.
On entering the space devoted to this
exhibit at the left of the main aisle
one sees first in a glass case a purity
separating table with magnifying glass,
forceps and other tools used by experts
in separating a sample of commercial
seed into its component parts of pure
seed, chaff, sand and other foreign
matter and weed seeds. Next is a pair
of fine balances on which samples are
weighed, all percentages in seed purity
tests being based upon weight. Be-
yond the scales is a new combined
mixer and sampler. In this a quantity
of seeds is quickly mixed and a sample
of the desired amount delivered which
will fairly represent the entire lot. One
of the most attractive pieces of ap-
paratus used in purity testing is the blast
impurity separator, which is also a new
device. The air blast is furnished by a
modern blower driven by an electric

CUBA AT THE EXPOSITION.
A Splendid Exhibit of Its Resources
to Be Made at the Pan-American.
The diversified and valuable re-
sources of Cuba will be exhibited at
the Pan-American Exposition.
A Cuban building has been erected
in the Court of State and Foreign
buildings, and it is one of the most
picturesque of this fine group. Its ar-
chitecture and materials are peculiar
to the island. The building is sur-
mounted by the traditional "Tower of
Havana" and attracts the attention of
all visitors. It has a splendid view of
the Park Lakes, The Approach, The
Fore Court, The Triumphal Bridge and
other parts of the Exposition.
Among its nearest neighbors is the
Honduras building, which overlooks

motor. The device itself, however, in
which the separation of chaff and light-
er impurities from seed is performed
through the action of an air current,
consists of a simple bent glass tube
connected with a receiver.
Actual germination tests will be car-
ried on at the Exposition as in the
Seed Laboratory at Washington. Com-
mercial seeds will be counted, arrang-
ed in folded blue blotters, moistened
and placed in the standard germinat-
ing chamber, where they will be kept
at fixed temperatures favorable to ger-
mination. Check germination tests,
such as are employed in conducting
tests with many kinds of seeds, will be
made in sterilized sand and soil in
greenhouse "flats." The number ger-
minating each day for a definite period
in each of the tests will be noted, and
the percentage of germination thus
computed.
Many weeds the seeds of which are
most frequently found as impurities
in commercial seeds are represented
by living plants labeled with the
names by which they should be design-
ated by English speaking people
wherever found. A unique feature is
an exhibit of seeds of many of these
weeds and also several kinds of com-
mercial seeds arranged under 40 mag-
nifying glasses accompanied by seeds
of the same kinds in open dishes, so
that one may readily compare the mag-
nified impression with the actual seed
and note differences and distinctive
characters that would not appear to
the unaided eye.
The results and importance of seed
testing are graphically represented by
several groups of glass tubes contain-
ing different kinds, of commercial
seeds. These show the ordinary com-
mercial seed, the amount of pure seed
true to name in the sample and the
amount of inert matter, such as chaff,
sticks and sand, the proportion of
weed seeds, and finally the amount of
germinable seeds true to name, as de-
termined by test of similar sample and
the proportion of waste. A comparison
of these last two indicates how
much is often paid for waste in buy-
ing untested and poorly cleaned seeds.
Commercial seed growing is shown
by photographic illustrations of some
of the largest seed farms in California,
where the production of garden seeds
has reached its highest development
in this country.
CHARLES EDWARD LLOYD.
A crusty old bachelor of Syracuse found
this plaintive little appeal in the bottom
of a strawberry box:—"I am sixteen

Slighting the Waiter.
It was at a railway refreshment
room. The passenger was hungry and
in a hurry.
"Please pass me them potatoes, mis-
ter," he said, addressing an elegant
gentleman who sat next him.
The latter slowly focused his gold
eyeglasses on the speaker. "Did you
think that I was one of the waiters?"
he asked icily.
The others held their knives and
forks suspended in midair, expecting
to see the man shrivel up, but no such
phenomenon took place. He turned
and beckoned to the nearest waiter.
"George, come here, please."
"What is it sir?" asked George.
"I wanted to apologize to you—that
is all. You see, I mistook this party
here for you, but I hope you won't be
offended at it. Now pass me them
potatoes, and we'll go on with the
rest of the meal."—London Tit-Bits.

GAYETY AND GLADNESS.
Great Abundance on the Pan-Ameri-
can Midway.
The Midway of the Pan-American
Exposition will have the choicest of
the world's amusement novelties. A
visit to the different concessions will
seem like a peep into foreign countries,
the representation of life will be so
true. There will be a Trip to the Moon,
Beautiful Orient, Colorado Gold Mine,
Glass Factory, Scenic Railway and
Rivers, Captive Balloon, Darkness and
Dawn, Dreamland, War Cyclorama,
Around the World, Turpin's Panopti-
con, Bostock's Wild Animal Show, Old
Plantation, Cleopatra, Cineograph, Je-
rusalem on the Morning of the Crucifi-
xion, Diving Elks, Indian Congress,
Old Nuremberg, Infant Incubator, Os-
trich Farm, Venice in America, Mov-
ing Pictures, Thompson's Aero-Cycle,
Roltaire's House Upside Down, Johns-
town Flood, Hawaiian Volcano, Gypsy
Camp and Filipino, African, Japanese
and Eskimo Villages.
The Midway covers an area of more
than 40 acres. The cost of building it
was \$5,000,000. The amusement pa-
tents are set close together, and the
long intervening distances which have
wearied pleasure seekers on other Mid-
ways will be agreeably lacking here.
The concessions have a frontage of
something over a mile. More than 50,
000 incandescent lamps will be used in
the illumination of this amusement
quarter. There will be 2,000 lights up-
on the Thompson Aero-Cycle, which
will be operated by Niagara Falls pow-
er. Such a tempting amusement fea-
ture as has been provided for visitors to
this Exposition has never before been
seen. The wonderful Midway of the
Pan-American Twentieth Century cele-
bration is the culmination of colossal
amusement enterprise.

NEW ENGLAND BUILDING.
The New England building in the
Court of State and Foreign Buildings
at the Pan-American Exposition re-
minds one of a fine old colonial man-
sion. Its broad piazzas and terraces
are typical of a New England home of
the Revolutionary period. The design
is plain, yet rich. The building is 104
feet long by 52 feet wide. The walls
are covered with staff, painted to re-
present red brick with white marble
trimmings. The shields of the six New
England States are placed in colors on
the front, and there is a staff for each
state flag. On the ground floor is a
large reception hall, nearly 47 feet
square, supported by four columns, and
at the rear are colonial staircases
leading in two directions from the first
landing. On the right of the reception
hall are the bureau of information, the
courtroom and custodian's quarters.
On the left are lounging and writing
rooms, from which a beautiful view of
that section of the Exposition is possi-
ble. In both these rooms large colonial
fireplaces are arranged, and the fur-
nishings are all in accordance with the
colonial idea. The arrangement on
this floor is simple, thoroughly conven-
ient and withal decidedly in keeping
with what the building will be used
for. Up stairs there have been arrang-
ed six large rooms. Each New Eng-
land State is allotted one, and it is used
for a rendezvous for people from that
particular state.
This building is located on a street,
or path, connecting directly with the
Grand Court and is in almost a cen-
tral position as the New York State
building. It is near the lake, in the
midst of over 10,000 transplanted
shrubs and trees. The cost of the
New England building was \$15,000.

Mrs. Alvah Coolidge and Gertrude Coolidge have gone to Bethel to spend a few days with friends.

Last Thursday evening a social was held at the library building. Ice cream and cake was on sale. A pleasant time was reported. There will be another on Thursday, Aug. 1st.

A large crowd listened to a very interesting sermon delivered by Rev. G. B. Hannaford of Andover, who exchanged with our pastor, Mr. Gifford. Mr. Hannaford preached here first, twenty-seven years ago, and has been with us from time to time since. We are always glad to welcome him.

A gloom was cast over the entire community by the death, Wednesday, July 10, of Charles B. Sherman, who for the past fifteen years has stayed at John Burke's. He was a man who was respected by all who knew him, a true sportsman and lover of nature. Verily one has passed away who will be missed. The interment was at his request on Upton hill. John Sherman, the only living brother, was present at the service. He leaves an aged mother and one brother, both of Boston, to mourn his death.

HARTFORD.

Mrs. George Parrott and Mrs. Edward Parrott with her daughter are spending a few days in their cottage at Peaks Island.

Freeman Chadbourne, who was for a long time ill with rheumatic fever, is convalescing at the home of his sister, Mrs. Leander Wardwell.

Joe Begin came out from Lisbon, Saturday, and went fishing on the lake with John White and Elihu Pike. They caught 23 trout.

A. R. Irving, while working in his new room, last week, unfortunately caught his hand in a gear, consequently he is absent from his post as overseer.

Early Sunday morning, the steam mill at Oxford station owned by Russell McNeil was burned to the ground. Cause of fire unknown. Loss, \$2,000; insured.

George Hazen's House Burned.

On Sunday as Benj. Flood was driving home from church where he had taken some ladies to the morning service, he saw smoke coming from the top of George Hazen's house. The family were at church. He tried the door, found it unlocked and entered, when he found that the house was on fire. He looked for water but as he had never been in the building before he failed to look in the right place. He quickly gave the alarm, however, which was at once responded to by all the people.

The men worked like heroes with the hose, the ministers, Revs. F. Newport, Erickson and Callaghan came from their churches and were in the battle with the others. Rev. A. A. Callaghan did such good work that one man remarked to another, "Say, that lad is worth a dozen of us."

The ladies removed their hats and neck ribbons and worked with a will, moving out the household goods which were all saved. Grace Bowers kindly taught the hard worked firemen and provided them with water. The fire was caused, it is thought, by a defective chimney, and had gained such headway in the upper portion of the house before it was discovered that it was impossible to save but a blackened ruin of the finest residence in town.

The furniture was all removed from George Hawkes' house. The roof of Merrill Brackett's barn took fire, but was soon extinguished.

Charles Briggs of Pittsburg, Pa., died, recently. His wife, Mary, Briggs, is a daughter of Mrs. John Gerry of this place.

Mrs. Hattie Brown is in very poor health. It is feared she must undergo treatment at a hospital, but it is not yet fully decided.

Frederick Brooks, silversmith, of Providence, R. I., is boarding at the Mason place, also Anna and Lillian Mason of Rhode Island, who have come to spend the summer.

During the heavy shower that passed over this place, Wednesday, the 17th, a fence was struck by lightning near E. Emerson's house. The large elm in front of F. Sanderson's house was also struck.

It is reported that Willis Learned received a sunstroke, Tuesday, the 18th, and several others were badly affected by the intense heat of the week, the mercury registering 102 degrees a part of the time.

Mrs. Martha Norton of Porter, sister of Mrs. George O. Kimball of this place, and her two daughters recently visited her son, Nathaniel Norton, a prominent lawyer in Buffalo, and while there they visited the Pan-American exposition.

A whist party called "The Jolly Six," was given by Ethel Kendall at her home, last Wednesday night. Refreshments were cake and ice cream. They advocated the principle, which, however, may not be altogether wrong, viz.: "Two is company, three is a crowd."

The Methodist society of Bridgton held a picnic on the banks of Mathey brook, last Thursday. Unluckily, a shower came up, causing them to disperse sooner than they were intending, but not until after the dinner was served in the cool retreat for which Mathey is famous. It is a favorite resort for picnickers and tourists.

It seems that there should be no need of putting up notices or warning people to keep out of their berry lots, among people of common sense. As has been remarked: "A person may just as well come into my pasture and take sugar, as to go into my pasture and take berries without my permission." If people need berries or the money they can get for them, why not ask to pick on shares and prove themselves straight and honest citizens? The want of a thing does not justify the act of taking unfairly that which does not belong to us.

BROWNFIELD.
Susie Leavitt remains very ill.

Lura Staples is visiting in Parsonsfield and Kezar Falls.

F. A. Warren has work in the chair factory at Fryeburg.

W. C. Rowe and Nelson Adams went to Portland, Saturday.

Everybody is busy haying. The crop will be much heavier this year than last.

Carrie Quint of Portland is visiting her aunt, Mrs. Albert Blake, also other relatives and friends in various parts of the town.

One horse in town, at least, is up to date for he wears a straw bonnet, but it looks rather strange to see the ladies hatless.

Edwin McLucas and family from Wolfeboro, N. H., are the guests of Mrs. McLucas' parents, Mr. and Mrs. Harrison Durgin.

Mr. and Mrs. H. G. Wentworth and baby son have gone to Denmark where they will visit his parents, Mr. and Mrs. Austin Wentworth.

Beginning Sunday, July 21, the services at the Universalist church will be held at 10:30 a. m. instead of 9:30 p. m. Sunday School after the services.

G. C. Poore, the photographer, and daughter Cassie have returned from Redstone, N. H., where they have been making pictures, for the past few weeks.

Mrs. Sarah Goldthwaite and daughters, Mary and Jennie, have arrived at Parley Brown's for the season. More boarders from Salem, Mass., are expected this week.

The ladies of the Public Library Association held their fair and ice cream supper, July 17, at E. B. Bean's hall. It was well attended, all the fancy articles were sold and a neat little amount was realized.

Gertrude Lewis, the book agent, has returned to her home in Bridgton. Her book, "A Century of Facts," should be in every household as it contains much valuable information in a condensed form. She received twenty-two orders about town and will deliver the books about Sept. 1.
